Subject: RE: Special issue of the journal MDPI for RSP extended papers

Hello Frédéric ,

Thank you! We accept your invitation to submit an extended version of our RSP paper!

Cheers,
Pranav

Subject: Special issue of the journal MDPI for RSP extended papers

Dear RSP symposium authors or co-authors,

The RSP organization restarts the agreement with a special issue in a journal.

As announced in the RSP website in 2015, we got the agreement for the organization of a special issue of the journal Electronics published by MDPI about

Rapid System Design with Dedicated Architectures and Specific Software Tools

http://www.mdpi.com/journal/electronics/special_issues/rapid_system

We would like to invite you to submit an extended version of your RSP paper with at least 30% of new material in the special issue of this journal. This invitation is sent to few selected papers from RSP 2015 (and RSP 2014) which have been well-ranked during the review process.

The deadline for submission is [March 31st 2016](#). Manuscripts should be submitted online at MDPI web site. Instructions for authors and submission guidelines are available in the journal special issue web page indicated above.

If you accept this invitation, please confirm us by email.

We hope to read your text soon as a contributor of this special issue.

The RSP organization - Amer, Fabiano, Frédéric
